34th Annual Spring Bull Sale
FRIDAY, APRIL 19, 2024
1:00 PM MT
FAITH LIVESTOCK AUCTION • FAITH, SD

Dear Cattle Ranchers,

Our family would like to welcome you to our 34th Annual Spring Yearling Bull Sale and thank you for your interest in our cattle. As you look through the bulls, we are offering, we hope you will see we are trying to raise cattle with balanced traits. We strive to produce females that are moderate framed, easy fleshing, must breed back, and produce a calf every year. Ninety percent of the bulls in this sale offering will work on yearling heifers. They will also produce females that you will want to keep in your herd. We are extremely pleased with the calves we have on the ground, so far, by our two newest herd sires, Basin Keystone 2021 and GA Comet 452. We believe that they have a lot to offer our herd and the Angus breed. We are continually trying to improve our cow herd; every bull and heifer is DNAed through Angus GS to verify parentage and improve the accuracy of their EPDs. Every bull we sell is registered. The bulls are developed in a pasture where they get plenty of exercise, they are fed a high roughage nutritionally balanced ration consisting of alfalfa haylage, oat haylage, corn silage, soybean silage, crested wheat grass, protein supplement and rolled corn. The corn is fed at a maximum rate of ½ pound per 100 pounds of body weight. The bulls are developed slowly, which we believe improves their longevity. Videos of the bulls can be viewed at our website, PineCreekAngusRanch.com, our Facebook page, FaithLivestock.com, and DVAuction.com. We hope to see you on sale day. However, we realize that is not always possible, so there are a couple ways for you to bid online. Please, make sure you are registered at CattleUSA.com or DVAuction.com prior to the sale.

You can view the bulls in Faith at the sale barn the afternoon before the sale or come early on sale day to look over the bulls and join us for lunch.

The sale starts at 1:00 PM MT.

Thankful for our many Blessings,

Dollar value indexes, or **\$Values**, are a tool used to select for several traits at once based on a specific breeding objective. An economic index approach takes into account genetic and economic values as well as the relationships between traits to select for profit.

American Angus Association \$Value Indexes

Maternal Weaned Calf Value (\$M)

is an index expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning. \$M is built off of a self-replacing herd model where commercial cattlemen replace 25% of their breeding females in the first generation and 20% in subsequent generations. Remaining cull females and all male progeny are sold as feeder calves. Increased selection pressure on \$M aims to decrease overall mature cow size and improve foot structure and fertility while maintaining weaning weights consistent with today's production.

Beef Value (\$B)

is an index expressed in dollars per carcass, facilitates simultaneous multi-trait genetic selection for feedlot and carcass merit. \$B represents the expected average differences in the progeny postweaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a quality-based carcass grid.

Combined Value (\$C)

is an index expressed in dollars per head, includes all traits that make up both \$M and \$B with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid.

These two bulls are different and yet very similar. Both bulls are definitely calving ease bulls, and both are deep bodied and correct in structure. They have the look and pedigrees to be strong maternal sires. Both have very good feet and are docile. We have calves on the ground by both of these up-and-coming sires, and are very pleased with how they are looking. Keystone calves are averaging 74 pounds and Comet calves are averaging 76 pounds. We welcome anyone that would like to come and see these calves and their mothers.
