Spring Turn Out Bull Sale

Monday, May 19, 2025

**2:00 PM • AT FAITH LIVESTOCK AUCTION,
FAITH, SOUTH DAKOTA**

Wilken

Angus

Hi Friends,

Thanks so much for your continued support of our program. We strive to provide the very best of proven genetics to our customer in a two year old bull that is ready to go to work.

Our program is backed by 22 years of exclusive AI genetics. We continually strive to produce balanced cattle that will work in the pasture, feed year, and on the rail.

The bulls in the sale are all first time offered. We have used some of the bulls on our heifers and cows. All bulls, whether we used them or not, have been trich-tested by Dr. Bleaux Johnson, West River Vet Clinic, Hettinger, ND. This powerful set of bulls have all been fertility-tested this spring and are ready to go work.

Remember to bring your trailers for sale day! See you soon!

Zoetis 50K Genetic Testing:

We are pleased again this year to have the Zoetis 50K testing. 50K testing uses a sample of each of our bull's DNA to dependably determine their genetic potential. The bulls selling have been sire verified through the 50K genetic testing. **See page 3 for more information on 50K genetic testing information provided.**

Individual Docility Score:

We have instituted a docility score that is specific to our bulls. This is NOT AN MVP. It is a subjective score derived from our personal evaluation of each bull. A bull would have to be rated 1-3 in order to qualify for our sale.

- | | |
|----------------------|---------------------|
| 1 - Extremely Gentle | 4 - Flighty |
| 2 - Docile | 5 - Aggressive |
| 3 - Restless | 6 - Very Aggressive |

Most Probable Producing Ability (MPPA):

You will see the Dam's MPPA listed on many of the bulls throughout the catalog. The MPPA is a performance ratio by which you reliably can compare a dam's past production.
